U. S. DEPARTMENT OF AGRICULTURE

LIST NO. 5

Compiled by ELEANOR W. CLAY

Office of Information

September 1956

U. S. DEPARTMENT OF AGRICULTURE

NOTICE

The publications included in this list are of general interest to farmers and homemakers. They are arranged numerically and classified by subjects under two main groupings, "Bulletins for the Farmer" and "Bulletins for the Homemaker." All were available free at the time this list went to press.

Not more than 10 publications are supplied unless justification is given. Limited quantities of publications will be furnished for official use. Consideration will also be given to quantity requests from nonprofit organizations cooperating with the Department. On general requests if more than 10 publications are desired at one time it is requested that they be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Prices will be quoted by the Superintendent of Documents upon request.

Members of Congress receive an allotment of Farmers' Bulletins and Leaflets for such distribution as they wish to make. Hence, it is often possible to obtain copies in larger quantities by applying to a United States Senator or Representative.

For reasons of economy students are requested to apply through their teachers who may receive limited quantities for school libraries.

HOW TO ORDER

When you request publications please use the order blank provided for this purpose on pp. 29 and 30. By doing this you will hasten delivery.
